Read Me First

Installation

Before **ConnectIt-Sage200** can be installed and configured, it is necessary to have the following set up on the target PC(s):

- **QuoteWerks** v4.0 build 17 – v5.0 build 2 Standard, Professional or Corporate edition
- **Sage 200** 2009 – 2013
- **Microsoft .net Framework** v4.0 (redistributable package)

QuoteWerks v4.0 b17 – v5.0 b2

- **QuoteWerks** can be downloaded from http://www.quotewerks.com/downloads.asp

Sage 200 v6.2 (2009) – v9 (2013)

- Please contact your Sage 200 reseller consultant or support team for more information.

Microsoft .net Framework v4.0 (redistributable package)

- **Microsoft .net framework** is downloaded as part of the **ConnectIt-Sage200** installation, or it can be downloaded and installed separately from http://download.microsoft.com/
- The version required will depend upon your operating system. Please check this with your IT support administrator.

Administrator privileges

You should be logged into the destination PC with local administrator privileges and ensure that no anti-virus or firewall software is running which could interfere with installation. The **ConnectIt Registration** process also requires access to the internet.
